Marilyn McIntosh, Library Director
Monroe Free Public Library
Mill Pond Parkway
Monroe, NY 10950

Dear Ms. McIntosh:

The U.S. Environmental Protection Agency, (EPA) is currently performing a time-critical removal action at the Pyridium Mercury II Site under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). The CERCLA Removal Action is located in Harriman, Orange County, New York.

We appreciate having the Monroe Free Public Library as the designated administrative record facility for the Pyridium Mercury II Site. The enclosed record files, along with any future documents relating to technical activities at the site should be placed in the Monroe Free Public Library and be available for public review. The record files should be treated as a non-circulating reference and should not to be removed from your facility.

By providing the public with greater access to these records, we hope that they will be better equipped to comment constructively about site activities and to understand the issues relating to the selection of the response action at the site.

Also enclosed is a fact sheet, "Administrative Records in Local Repositories", to assist you and your staff in answering questions posed by the public concerning administrative records for selection of response actions at Superfund sites. Please feel free to distribute this guide to the public.

To ensure the receipt of the administrative record file, I would appreciate your completion of the attached Document Transmittal Acknowledgment form. Please return this form in the enclosed self-addressed, stamped envelope.

Again, I would like to thank you for your cooperation with the U.S. EPA in serving as a Field Repository. If you have any questions or comments, please contact me at (908) 906-6813.

Sincerely,

Irmee Huhn
On-Scene Coordinator

NOTICE OF PUBLIC AVAILABILITY

The United States Environmental Protection Agency Announces The Availability of the Administrative Record for the Pyridium Mercury Disposal Site # 2

The U.S. Environmental Protection Agency (EPA) announces the availability for public review of files comprising the administrative record for the selection of the removal action at the Pyridium Mercury Disposal Site # 2. The EPA seeks to inform the public of the availability of the record file at this repository and to encourage the public to comment on documents as they are placed in the record file.

The administrative record file includes documents which form the basis for the selection of a removal action at this site. Documents now in the record file include: Sampling Analytical Data Report and the EPA regional guidance documents list. Other documents may be added to the record files as site work progresses. These additional documents may include, but are not limited to, other technical reports, validated sampling data, comments, and new data submitted by interested persons, and the EPA responses to significant comments.

The administrative record files are available for review during normal business hours at:
